Three days training programme for tribal farmers on “Importance of soil testing and judicious fertilizer application for increased crop productivity” under TSP-STCR was organized during 19th to 21st November, 2020 at ICAR-CRIJAF, Barrackpore. Ten farmers from Makaltala village participated in this training programme. Dr. A.R.Saha, In-Charge, Crop Production Division, ICAR-CRIJAF delivered the welcome address. In the inaugural session, Dr. Gouranga Kar, Director, ICAR-CRIJAF emphasized on importance of soil testing and judicious fertilizer application based on soil test for increasing crop productivity and higher income. During this training programme, the participants were oriented about soil test based fertilizer management for enhancing crop productivity, importance of biofertilizer and soil amendments for better crop production, impact of COVID-19 pandemic on food and soil security, importance of soil testing and hands on training on collection and preparation of soil samples. Trainees were also sensitized about Soil health card scheme launched by Government of India. The programme was organized by Dr. A.R.Saha, Dr.Bijan Majumdar, Dr Sonali Paul Mazumdar, Dr.M.S.Behera, Dr. Shamna A. and Dr Debarati Dutta.
